To: customerservice@sanc.co.za

Dear Registrar,

I am writing to formally notify the Council that my current deregistration and inability to maintain professional fees are the direct result of Occupational Detriment and Retaliation as defined under the Protected Disclosures Act.

I am a senior nursing professional and Health Services Manager for Governance, Risk, and Psychosocial Safety. Following protected disclosures made regarding governance failures at AfroCentric Health, the employer engaged in a campaign of professional erasure, which included:

- **Unlawful Salary Deductions:** Withholding over 40% of my remuneration without consent, specifically while I was admitted to a psychiatric hospital.
- **Induced Destitution:** The deliberate withholding of my livelihood resulted in homelessness and the inability to maintain my professional standing and SANC fees.
- **Legal Misrepresentation:** The employer has further attempted to erase my professional and personal identity by intentionally misgendering me in sworn affidavits submitted to the CCMA.

Please find attached the CCMA Certificate of Non-Resolution and my Statement of Claim for R5 million. This matter is now proceeding to the Labour Court to address the "professional capital punishment" inflicted by the employer.

I request that this notification be placed on my professional file to ensure that my status is restored without prejudice once restitution is achieved through the legal process.

Sincerely,

Sr. Wilbur Matthee
