Dear SAPC Professional Conduct Team, Mr. Nkanyane, and Ms. Ngoveni,

As requested, please find the formal complaint against Lisa Mari (Responsible Pharmacist) attached.

She used a deficient three-month claim pattern analysis to dismiss a structural IT error (GEMS Ref: 000655789), falsely characterizing system-generated non-adherence flags as clinically explicable.

Formulating this as the final internal resolution artificially closed an active patient safety investigation, forcing my escalation to the CMS to prevent ongoing chronic patient funding disruptions.

Please acknowledge receipt of the attachment so the formal investigation may proceed.

Yours faithfully,

Sr. Wilbur W Matthee
Specialist RegisteredNurse, BTech (Psych, Midw,Comm), PG Dip HSM (NQF 8)

Health Services Management.

You don't often get email from info@ethichawks.co.za. [Learn why this is important](#)

CAUTION: This email originated from outside of the organization. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Dear SAPC,

Please find the initial email correspondence sent to the South African Pharmacy Council (SAPC) regarding my formal complaint. This information is provided to ensure full transparency regarding the ongoing regulatory and patient safety concerns.

The attached documentation outlines the core allegations and the professional conduct standards at issue. The following up email serves as the correction to the oversight made in above complaint.

Sincerely,

Wilbur William Matthee
