Ordinary resolutions

Ordinary resolution number 1

Confirmation of appointment of Directors appointed during the year under review

In terms of the Company's Memorandum of Incorporation (**MOI**), any Board appointments made by the Board during the year under review must be confirmed by shareholders at the next AGM of the Company, following such an appointment. Accordingly, the Board appointed Ms CK Mokoena during the year under review, and shareholders are hereby requested to confirm this appointment.

Ordinary resolution number 1

Election of Ms CK Mokoena as a Non-executive Director

"RESOLVED that the appointment of Ms CK Mokoena as a Non-executive Director of the Company, be and is hereby confirmed."

Ms Mokoena's brief résumé appears in Annexure 4 under directors nominated for the Social and Ethics Committee, on page 43 of this Notice.

For resolution 1 to be passed, votes in favour must represent more than 50% of all votes cast and/or exercised at the meeting.

Notice of Annual General Meeting *continued*

Ordinary resolution number 2

Election of directors

In terms of the Company's MOI, one-third of the Non-executive Directors must retire by rotation every year at the Company's AGM. Accordingly, the following directors retire by rotation at the AGM. The Board has assessed the performance of the directors standing for election and found them suitable for re-appointment.

Mr JB Fernandes

Mr MJ Madungandaba

Ms KN Mkhize

Ordinary resolution number 2.1

Election of Mr JB Fernandes as a Non-executive Director

"RESOLVED that Mr JB Fernandes, who retires by rotation in terms of the MOI of the Company, being eligible and offering himself for election, be and is hereby elected as a Non-executive Director of the Company."

Ordinary resolution number 2.2

Election of Mr MJ Madungandaba as a Non-executive Director

"RESOLVED that Mr MJ Madungandaba, who retires by rotation in terms of the MOI of the Company, being eligible and offering himself for election, be and is hereby elected as a Non-executive Director of the Company."

Ordinary resolution number 2.3

Election of Ms KN Mkhize as a Non-executive Director

"RESOLVED that Ms KN Mkhize, who retires by rotation in terms of the MOI of the Company, being eligible and offering herself for election, be and is hereby elected as a Non-executive Director of the Company."

Brief résumés for these directors are available on page 39 of this Notice.

For resolutions 2.1 to 2.3 to be passed, votes in favour must represent more than 50% of all votes cast and/or exercised at the meeting.

Notice of Annual General Meeting *continued*

Ordinary resolution number 3

Appointment of the members to the Audit and Risk Committee

The Act provides that the members of an Audit and Risk Committee, comprising Independent Non-executive Directors, as provided in section 94(4) of the Act, appointed in terms of section 94(2) of the Act, shall only hold office until the next AGM.

The Board has assessed the performance of the Audit and Risk Committee members standing for election and has found them suitable for reappointment.

Brief résumés for these directors are available on page 41 of this Notice.

Ordinary resolution number 3.1

"RESOLVED that, subject to the passing of ordinary resolution 2.1, Mr JB Fernandes is elected as a member of the Audit and Risk Committee."

Ordinary resolution number 3.2

"RESOLVED that Ms AM le Roux is elected as a member of the Audit and Risk Committee."

Ordinary resolution number 3.3

"RESOLVED that Ms K Morule is elected as a member of the Audit and Risk Committee."

For resolutions 3.1 to 3.3 to be passed, votes in favour must represent more than 50% of all votes cast and/or exercised at the meeting.

Ordinary resolution number 4

Appointment of the members to the Social and Ethics Committee

In terms of section 61(8)(c)(iii) and 72(9A)(a) of the Act, at each AGM, shareholders are required to elect the members of the Social and Ethics Committee.

The Board has assessed the performance of the Social and Ethics Committee members standing for election and has found them suitable for appointment.

Brief résumés for these directors are available on page 43 of this Notice.

Ordinary resolution number 4.1

"RESOLVED that, subject to the passing of ordinary resolution 1, Ms CK Mokoena is elected as a member of the Social and Ethics Committee."

Notice of Annual General Meeting *continued*

Ordinary resolution number 4.2

"RESOLVED that Ms K Morule is elected as a member of the Social and Ethics Committee."

Ordinary resolution number 4.3

"RESOLVED that Dr ND Munisi is elected as a member of the Social and Ethics Committee."

For resolutions 4.1 to 4.3 to be passed, votes in favour must represent more than 50% of all votes cast and/or exercised at the meeting.

Ordinary resolution number 5

Appointment of the independent auditor

The Audit and Risk Committee has assessed KPMG's performance, independence and suitability and has nominated KPMG for appointment as independent auditors of the Group to hold office until the next AGM.

"RESOLVED that KPMG be appointed as the independent auditor of the Group for the ensuing year."

For resolution number 5 to be passed, votes in favour must represent more than 50% of all votes cast and/or exercised at the meeting.

Ordinary resolution number 6

General authority to repurchase shares

The reason for and effect of this ordinary resolution number 6 is to grant the directors a general authority in terms of the MOI of the Company and the Listings Requirements for the acquisition by the Company or by a wholly owned subsidiary of the Company of shares issued by the Company on the basis reflected in ordinary resolution number 6.

In terms of section 48(2)(b)(i) of the Act, subsidiaries may not hold more than 10%, in aggregate, of the number of the issued shares of a company. To avoid doubt, a pro rata repurchase by the Company from all its shareholders will not require shareholder approval, save to the extent required by the Act.

"RESOLVED that, the Company and/or any subsidiary of the Company be and is hereby authorised by way of a general approval as contemplated in the JSE Listings Requirements, to acquire from time to time any of the issued ordinary shares of the Company, upon such terms and conditions and in such amounts as the directors of the Company may from time to time determine, but subject to the MOI of the Company, the provisions of section 48 of the Companies Act and the JSE Listings Requirements, where applicable (each as presently constituted and amended from time to time)."

Notice of Annual General Meeting *continued*

Explanatory note: Any repurchase of shares must be effected through the order book operated by the JSE trading system, without any prior understanding or arrangement between the Company and the counterparty.

At any point, the Company may appoint only one agent to effect any repurchases on its behalf.

The number of shares that may be repurchased pursuant to this authority in any financial year may not, in the aggregate, exceed 10% (ten percent) of the Company's issued share capital in the case of an acquisition of shares in the Company by a wholly owned subsidiary of the Company.

Repurchases of shares may not be made at a price greater than 10% (ten percent) above the weighted average of the market value of the shares for the 5 (five) business days immediately preceding the date on which the transaction was effected.

The Company or a wholly owned subsidiary of the Company may not effect a repurchase during any prohibited period as defined in terms of the Listings Requirements unless there is a repurchase programme in place, which programme has been submitted to the JSE in writing and executed by an independent third party, as contemplated in terms of paragraph 7.89 of the Listings Requirements.

After the Company or a wholly owned subsidiary of the Company has acquired shares that constitute, on a cumulative basis, 3% (three percent) of the initial number of shares in issue (at the time that authority from shareholders for the repurchase is granted) of the relevant class of shares and for each 3% (three percent) in aggregate of the initial number of that class acquired thereafter, the Company shall publish an announcement on SENS containing full details of the repurchase.

For ordinary resolution number 6 to be passed, votes in favour of the resolution must represent more than 50% of all votes cast and/or exercised at the meeting.

In accordance with the Listings Requirements, the directors record that:

- The directors have no specific intention to repurchase shares but would utilise the renewed general authority to repurchase shares to serve our shareholders' interests as and when suitable opportunities present themselves, which may require expeditious and immediate action.
- The directors undertake that they will not implement the repurchase as contemplated in this ordinary resolution while this general authority is valid unless:
 - > The Company and the Group will be able to pay their debts in the ordinary course of business.
 - > The consolidated assets of the Company and the Group will be in excess of the liabilities of the Company and the Group; the assets and liabilities being recognised and measured in accordance with the accounting policies used in the latest audited Group AFS.

Notice of Annual General Meeting *continued*

The share capital and reserves of the Company and of the Group are adequate for ordinary purposes.

The working capital of the Company and the Group will be adequate for ordinary business.

Disclosures required in terms of paragraph 7.91 of the Listings Requirements:

The following additional information is provided in terms of the Listing Requirements for purposes of the special resolution:

Major shareholders – page 13 of the 2025 AFS

Company's share capital – page 92 of the 2025 AFS

The ordinary shares of the Company do not have any preferential conversion or exchange rights. The rights of ordinary shares to dividends, profits and capital, including redemption rights and rights on liquidation and distribution of capital assets, are standard for ordinary shares of this nature.

There are no founders and management or deferred shares in issue.

There have been no alterations to the share capital of the Company in the preceding 3 years.

Material change

Other than the facts and developments reported on page 32 and in the 2025 AFS, there have been no material changes in the financial or trading position of the Company or its subsidiaries since the Company's financial year-end and the signature date of the Integrated Annual Report.

Ordinary resolution number 7

Approval of the remuneration policy

King IV™ recommends that a company's remuneration policy be tabled for a non-binding shareholder advisory vote at each AGM. This enables shareholders to express their views on the remuneration policies adopted.

Ordinary resolution 7 is of an advisory nature only, and failure to pass this resolution will therefore not have any legal consequences relating to existing remuneration arrangements. However, the Board will consider the outcome of the vote when determining amendments to the Company's remuneration policy.

"RESOLVED that by a non-binding advisory vote, the Company's remuneration policy, as set out in the remuneration report on pages 22 – 30 of the Governance and Remuneration Report, be and is hereby endorsed."

For resolution number 7 to be passed, votes in favour must represent more than 50% of all votes cast and/or exercised at the meeting.

Notice of Annual General Meeting *continued*

Ordinary resolution number 8

Approval of the remuneration implementation report

King IV™ recommends that the implementation of a company's remuneration policy be tabled for a non-binding shareholder advisory vote at each AGM. This enables shareholders to express their views on the implementation of the Company's remuneration policies.

Ordinary resolution 8 is of an advisory nature only, and failure to pass this resolution will therefore not have any legal consequences relating to existing remuneration arrangements. However, the Board will consider the outcome of the vote when considering amendments to the Company's remuneration policy.

"RESOLVED that by a non-binding advisory vote, the Company's remuneration implementation report as set out on pages 31 – 35 of the Governance and Remuneration Report be and is hereby endorsed."

For resolution number 8 to be passed, votes in favour must represent more than 50% of all votes cast and/or exercised at the meeting.

Explanatory note: The remuneration policy and implementation report set out above are proposed to shareholders in separate non-binding advisory votes in terms of the Notice of AGM. In the event that either the remuneration policy or the implementation report, or both, are voted against by 25% or more of the votes exercised at the AGM, the Board will engage with such shareholders to clarify the nature of and evaluate the validity of such objections, and will, where possible and prudent, given the objectives of the remuneration policy, consider those objections when formulating any amendments to the Company's remuneration policy and implementation report in the following financial year.

Special resolutions

Special resolution number 1

Approval of Non-executive Directors' fees

Approval in terms of section 66 of the Act is required to authorise the Company to remunerate directors for their services. Furthermore, in terms of King IV™ and as read with the Listings Requirements, remuneration payable to Non-executive Directors should be approved by shareholders in advance or within the previous two years. Employees of the Company (or any employee of Sanlam group company) do not receive any fees for their services rendered as directors of the Company.

Notice of Annual General Meeting *continued*

For special resolution 1 to be passed, votes in favour must represent more than 75% of all votes cast and/or exercised at the meeting.

Special resolution number 2

General authority to issue shares for cash

"RESOLVED that the directors of the Company be and are hereby authorised by way of a general authority, to issue authorised but unissued ordinary shares in the capital of the Company, or to allot, issue and grant options to subscribe for authorised but unissued ordinary shares in the capital of the Company, for cash, as and when they in their discretion deem fit, subject to the provisions of the Act, the MOI of the Company, the Listings Requirements, where applicable (each as presently constituted and amended from time to time), provided that the securities that are the subject to such issue shall not exceed 3% (three percent) of the Company's listed ordinary shares. The 3% of the Company's listed ordinary shares equates to 25 220 538 shares as at the date of this Notice."

Explanatory Note: It is recorded that, as at the date of this Notice, the Listings Requirements provide, inter alia, that the Company may only undertake a general issue of ordinary shares for cash subject to the following:

1. the ordinary shares which are the subject of the general issue of ordinary shares for cash must be of a class already in issue, or where this is not the case, must be limited to such securities or rights that are convertible into a class already in issue;
2. any such issue will only be made to "public shareholders" as defined in the Listings Requirements and not to related parties, however, related parties may participate in a general issue of ordinary shares for cash through a bookbuild process, provided that:
 - 2.1 related parties may only participate with a maximum bid price at which they are prepared to take up ordinary shares or at book close price. In the event of a maximum bid price and the book closes at a higher price, the relevant related party will be "out of the book" and not be allocated ordinary shares; and
 - 2.2 equity securities must be allocated equitably "in the book" through the bookbuild process and the measures to be applied must be disclosed in the SENS announcement launching the bookbuild.
3. the ordinary shares which are the subject of a general issue of shares for cash may not exceed 3% (three percent) of the total number of listed ordinary shares (25 220 538), as at the date of this Notice, being 840 684 592 ordinary shares. Any ordinary shares issued under this authority will be deducted from the aforementioned number;
4. In the event of a consolidation or sub-division during the authorised period, the authority will be adjusted to represent the same allocation ratio;
5. this authority shall be valid until the Company's next AGM, provided that it shall not extend beyond 15 (fifteen) months from the date that this authority is given;

Notice of Annual General Meeting *continued*

6. after the Company issues a cumulative 5% (five percent) or more of its issued ordinary shares in terms hereof within the authorised period, the Company shall publish an announcement containing full details of the issue, including the number of ordinary shares issued; the average discount to the volume weighted average price (**VWAP**) of the ordinary shares over the 30 (thirty) business days prior to the date that the issue is agreed in writing between the issuer and the subscribers; an explanation, including supporting information (if any), of the intended use of the funds and if options or convertible securities are issued, the effects of the issue on the statement of financial position, net asset value per share, net tangible asset value per share, the statement of comprehensive income, earnings per share, headline earnings per share and, if applicable, diluted earnings and headline earnings per share; and
7. the maximum discount at which ordinary shares may be issued is 10% (ten percent) to the 30 (thirty) day VWAP of such ordinary shares measured immediately prior to the date that the price of the issue is agreed between the issuer and the subscriber(s).

For special resolution number 2 to be passed, votes in favour must represent more than 75% of all votes cast and/or exercised at the meeting.

The directors have no specific intention of exercising this authority, and it will be used only if circumstances are appropriate.

Special resolution number 3

Financial assistance to a related or interrelated company or companies

The reason and effect of this special resolution number 3 is to grant the Board the authority to authorise the Company to provide financial assistance as contemplated in section 45 of the Act to a related or interrelated company or corporation incorporated outside of the Republic of South Africa (except in the case of financial assistance to a subsidiary of the Company, in which case authorisation in terms of section 45(3)(a)(ii) of the Act is not required).

"RESOLVED that, in terms of section 45(3)(a)(ii) of the Act, as a general approval, the Board of the Company be and is hereby authorised to approve that the Company provides any direct or indirect financial assistance (financial assistance will herein have the meaning attributed to it in section 45(1) of the Act) that the Board of the Company may deem fit to any company or corporation incorporated outside of the Republic of South Africa that is a related and/or inter-related party (related or inter-related will herein have the meaning attributed to it in section 2 of the Act, save for any subsidiaries of the Company) to the Company, on the terms and conditions and for amounts that the Board of the Company may determine, provided that the aforementioned approval shall be valid until the date of the next AGM of the Company."

For special resolution number 3 to be passed, votes in favour of the resolution must represent more than 75% of all votes cast and/or exercised at the meeting.

Notice of Annual General Meeting *continued*

Special resolution number 4

Financial assistance for the subscription of shares to related or interrelated companies

The reason and effect of special resolution number 4 is to grant the directors the authority, in terms of section 44(3)(a)(ii) of the Act, to provide financial assistance to any company or corporation that is related or interrelated to the Company and/or to any financier for the purpose of or in connection with the subscription or purchase of options, shares or other securities in the Company or any related or interrelated company or corporation.

"RESOLVED that, in terms of section 44(3)(a)(ii) of the Act, as a general approval, the Board of the Company be and is hereby authorised to approve that the Company provides any direct or indirect financial assistance (financial assistance will herein have the meaning attributed to it in sections 44(1) and 44(2) of the Act) that the Board of the Company may deem fit to any company or corporation that is related or inter-related to the Company (related or interrelated will herein have the meaning attributed to it in section 2 of the Act) and/or to any financier who provides funding by subscribing for preference shares or other securities in the Company or any company or corporation that is related or interrelated to the Company, on the terms and conditions and for amounts that the Board of the Company may determine for the purpose of, or in connection with the subscription of any option, or any shares or other securities, issued or to be issued by the Company or a related or inter-related company or corporation, or for the purchase of any shares or securities of the Company or a related or inter-related company or corporation, provided that the aforementioned approval shall be valid for two years or until the date of the next AGM of the Company."

For special resolution number 4 to be passed, votes in favour of the resolution must represent more than 75% of all votes cast and/or exercised at the meeting.

Impact of special resolutions 3 and 4

In terms of and pursuant to the provisions of sections 44 and 45 of the Act, the directors of the Company confirm that the Board will satisfy itself, after considering all reasonably foreseeable financial circumstances of the Company, that immediately after providing any financial assistance as contemplated in special resolution numbers 3 and 4 above:

- The assets of the Company (fairly valued) will equal or exceed the liabilities of the Company (fairly valued) (taking into consideration the reasonably foreseeable contingent assets and liabilities of the Company)
- The Company will be able to pay its debts as they become due in the ordinary course of business for 12 months
- The terms under which any financial assistance is proposed to be provided will be fair and reasonable to the Company
- All relevant conditions and restrictions (if any) relating to the granting of financial assistance by the Company, as contained in the Company's MOI, have been met

Notice of Annual General Meeting *continued*

Important information regarding attendance, participation and voting at the AGM

Record dates and other salient dates

The Board has set the record date on which shareholders must be recorded in the share register in order to be entitled to receive this Notice as Friday, 27 March 2026.

The record date in respect of participation in and voting at the AGM is Thursday, 30 April 2026, and the last date to trade in respect of participation and voting at the AGM is Friday, 24 April 2026.

Electronic participation

The AGM will be conducted entirely through electronic communication, as provided for in section 63(2)(a) of the Act. The Company's MOI does not prohibit electronic meetings.

Shareholders who wish to participate in the AGM, including proxy holders, will be required to submit the duly completed Electronic Participation Form (inserted in this Notice), together with the relevant documents to Computershare Investor Services Proprietary Limited ("**Computershare**"), as provided for on the form.

Shareholders are strongly encouraged to complete their verification well ahead of the AGM date.

Once your shareholding, identity (in accordance with section 63(1) of the Act) and authority (if the shareholder is not an individual) has been verified by Computershare, you will be provided with details on how to join the AGM web stream. A live voting function will not be available, and shareholders will be required to send their duly completed voting forms to Computershare via email before the AGM, or at the close of voting at the latest.

Shareholders that choose not to participate in the AGM can still submit their proxy forms as usual.

Voting instructions

Dematerialised shareholders:

Dematerialised shareholders whose ordinary shares are held in a nominee account must not complete the attached form of proxy. If your ordinary shares are dematerialised and are held in a nominee account, then your CSDP (Central Securities Depository Participant, or "Participant" as defined in the Financial Markets Act, 2012) or broker should contact you to ascertain how you wish to cast your vote at the AGM and thereafter cast your vote in accordance with your instructions. If you have not been contacted it would be advisable for you to contact your CSDP or broker and furnish them with your instructions.

Notice of Annual General Meeting *continued*

If your CSDP or broker does not obtain instructions from you, they will be obliged to act in terms of your mandate furnished to them, or, if the mandate is silent in this regard, to abstain from voting. Unless you advise your CSDP or broker timeously in terms of your agreement by the cut-off time advised by them that you wish to participate in the AGM or send a proxy to represent you, your CSDP broker will assume you do not wish to attend the AGM or send a proxy.

If you wish to participate in the AGM, request the necessary letter of representation from your CSDP or broker, and submit this letter together with the Electronic Participation Form (inserted in this Notice).

Certificated shareholders and “own name” shareholders

Certificated shareholders and “own name” shareholders that wish to participate in the AGM themselves, should submit their duly completed Electronic Participation Form (inserted in this Notice), together with an acceptable form of identification (in accordance with section 63(1) of the Act). Acceptable forms of identity in terms of section 63(1) of the Act include identity documents, passports and driver’s licences.

Certificated shareholders or own name shareholders may also appoint a proxy to represent them at the AGM by completing the attached proxy form and returning it to Computershare by no later than 48 (forty eight) hours prior to the AGM, or alternatively prior to the commencement of voting at the AGM.

If you appoint someone other than the chairman of the AGM as your proxy and want them to participate in the AGM, a duly completed electronic participation form should be submitted.

Joint holders

The Company’s MOI provides that any one of the joint holders of shares may vote either personally or by proxy at any meeting as if they were solely entitled to exercise that vote, and, if more than one of those joint holders participate at the AGM, either personally or by proxy, the joint holder who tenders a vote (including an abstention) and whose name stands in the securities register before the other joint holder(s) will be the one entitled to vote.

The Mauritius government bonds are held in a business model with the objective of collecting contractual cash flows, which consists of bi-annual interest receipts. Management's intention is to hold the bonds to maturity, at which point capital will be repaid. As such the bonds are measured at amortised cost. The cost approximates the fair value as the cost used is based on the quoted prices obtained from the financial institutions.

The Expected Credit Loss allowance is deemed immaterial as government bonds are perceived as low risk.

Fair value hierarchy

The following hierarchy is used to classify financial instruments for fair value measurement purposes:

Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2 – Inputs other than quoted prices included within level 1 that are observable for the asset or liability either directly (that is, as prices) or indirectly (that is, derived from prices); and

Level 3 – Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement. The significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a level 3 measurement.

Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

Specific valuation techniques used to value financial instruments include:

- the fair value of the debt instruments measured at fair value through profit and loss are determined based on a valuation of the net asset value attributable to the investment;
- the fair value of the remaining financial instruments is determined using discounted cash flow analysis and price earnings (**PE**) ratios.

The assets disclosed below have been classified as level 3 financial instruments, i.e. the inputs are not based on observable market data. The carrying amount of all assets in the table below approximates the fair value of the assets.

Valuation inputs and relationships to fair value

Valuation process

The finance department of the Group performs the valuations of the investments for financial reporting purposes, including level 3 fair values. The team reports directly to the CFO. Discussions of the valuation processes and results are held between the CFO and Group Finance at year end to determine the fair value of investments unless there is an indication of impairment which will result in a write off of the investment at that point in time.

6. Share-based payments

Sanlam restricted and Performance Deferred share plan

On 1 November 2024, the Group decided to participate in share incentive plans operated by Sanlam Group for eligible employees – Restricted and Performance Deferred Share Plans, both of which are linked to Sanlam Limited shares.

6.1 Receivables – Sanlam Restricted Share Plan (RSP) and Performance Deferred Share Plan (PDSP)

The balance relates to the amount advanced to Sanlam Limited Share Incentive Trust to purchase 725 472 Sanlam Limited shares to be granted to the Group executive directors and selected employees who are key, have scarce skills and/or are skilled leaders. These shares were acquired to ensure the Group meets its obligations under RSP and PDSP.

As part of RSPs Group executive directors were granted Sanlam Limited's shares which are held in the Group executives individual restricted accounts and will become unrestricted only if vesting conditions are met. The RSP has a measurement period of three years and is subject to both continued employment and performance conditions set by the Group over the three years. The Group executives will be entitled to shares after 43 months. The fair value of the shares on grant date (1 November 2024) was based on the Sanlam share price.

The receivable has been classified as non-current as the shares acquired for these plans will vest, or proceeds to be paid will be after 43 months, subject to meeting certain performance conditions.

Receivables – Sanlam Share-based comprise the following balances:

	Group		Company	
	December 2025 R'000	December 2024 R'000	December 2025 R'000	December 2024 R'000

6.2 Sanlam Performance Deferred Shares – IFRS 2 liability

As part of the PDSP, selected employees who are key, have scarce skills and/or are skilled leaders in the Group were granted the right to receive a cash amount linked to the value of a number of Sanlam shares in future subject to meeting certain conditions. The PDSP has a measurement period of three years and is subject to both continued employment and performance conditions set by the Group over the three years. The eligible employees will be entitled to a cash payment after 43 months.

At the time of vesting, the number of Sanlam shares that qualify for vesting will be sold in the open market, and eligible employees will be entitled to the full proceeds (market value at the time it can be sold) realised less the applicable taxes.

Details of the liabilities arising from the PDSPs are as follows:

7. Litigation and contingent liabilities

Neil Harvey & Associates Proprietary Limited

In 2018, Neil Harvey and Associates (**NHA**) initiated a claim against Medscheme for unauthorised use of the EMI Broker Software from 2005 to 2007, a tool that Medscheme helped to develop.

The total quantum of the claims was initially approximately R80 million but over the years the claims grew vastly in quantum and scope to around R356 million.

In 2020, following a 30-day hearing, the arbitrator determined that Medscheme did not have joint ownership of the software, constituting a copyright infringement. A nominal amount of R2.7 million was awarded to NHA. Additionally, claims against three former Medscheme executives were dismissed.

In 2021, NHA appended an additional R500 million claim relating to Medscheme's revenue from using a version of Nexus allegedly replicating Medware. NHA's expert quantified the total loss to exceed R1.5 billion.

In 2023, the arbitrator dismissed the claims against Medscheme brought against it by NHA. NHA appealed the matter.

Between 21 and 25 July 2025, the appeal meeting was held with both parties and the ruling was in Medscheme's favour.

NHA indicated that it intends to launch a review of the arbitration award however there has not been a review application submitted to date. During October 2025 Medscheme lodged the enforcement application.

As at 31 December 2025, NHA had communicated they still intend to launch a review application of the arbitration award, as such a contingent liability has been disclosed (an uncertain event not wholly within the control of Medscheme). The amount of this possible obligation cannot be measured with sufficient reliability, and it is also not probable that an outflow of resources embodying economic benefits will be required to settle the obligation.

Due to these uncertainties, a contingent liability in respect of the NHA matter has been disclosed.

8. Subsequent events

The directors are not aware of any significant matter or circumstance arising after the reporting date to the date of this report except as stated below:

- On 19 January 2026 Medscheme Holdings Proprietary Limited was awarded the tender for Sisonke Health Medical Scheme for administration and managed care contracts.
- As per the SENS dated 29 January 2026 the Group announced that the administration and managed care services for all Bonitas Medical Fund options, excluding the Income Based Option (BonCap) contracts currently held by Medscheme Holdings Proprietary Limited have been awarded to alternative service providers. These contracts are scheduled to expire 31 May 2026.
- Effective 24 February 2026 Dr Nkateko Munisi, who is currently serving as a non-executive director of the Company, has resigned from his position as a member of the Investment Committee and has been appointed as a member of the Remuneration Committee, both effective from 24 February 2026.
- Effective 6 March 2026 Marinda Dippenaar, who served as a non-executive director on the Board, resigned as a non-executive director and a member of the Investment Committee.

9. Preparation of the financial statements

The Group Annual Financial Statements of AfroCentric Investment Corporation Limited (**AfroCentric/the Group**) for the year ended 31 December 2025 were prepared by Bongiwé Ncube CA(SA), General Manager: Group Finance, AfroCentric Investment Corporation Limited and were reviewed by Thato Moloele CA(SA), Group Chief Financial Officer of AfroCentric Investment Corporation Limited.

Commentary on results

Introduction and review

AfroCentric “ACT” is a Level 1 B-BBEE JSE listed investment holding company focused on advancing access to affordable healthcare across Southern Africa. Through a diversified portfolio of subsidiaries, the Group delivers integrated health management solutions, including medical scheme administration, managed care, medicine provision, wellness services and digital health innovations. The Group operates across public and private sector environments and remains focused on strengthening operational execution, leveraging technology and clinical innovation, and building partnerships that support inclusive, value-based healthcare.

The Board presents commentary on the Group’s operating performance for the year ended 31 December 2025.

Annexure 1 – Summarised consolidated financial statements *continued*

Introduction and review *continued*

Operationally, the year was characterised by significant changes in parts of the Retail Cluster following the loss of designated service provider arrangements in Pharmacy Direct's private business, ongoing margin pressure in certain pharmaceutical products, and lower membership in some medical schemes. The Group also experienced service challenges during the migration of Gap administration and regulatory considerations within parts of the Retail Cluster, all of which were successfully addressed during the year.

Against this backdrop, teams delivered several strategic initiatives and platform improvements during the year, including the launch of Health Rewards by Sanlam, the implementation of Agile Transformation ways of work, the enablement of WhatsApp transactional capabilities and the continued evolution of the Healthcare Professionals Portal.

Progress in executing Vision 2030 initiatives was mixed across the Group's four strategic pillars.

Building a winning health offering

AfroCentric's Vision 2030 articulates the Group's long-term ambition to be a trusted and scalable healthcare partner, delivering administration, managed care and related services that support affordability, access and quality of care across the healthcare value chain.

During 2025, the healthcare environment continued to evolve rapidly, influenced by regulatory developments, scheme sustainability considerations and increasing pressure on healthcare costs.

Within this context, Fedhealth Medical Scheme and Medshield Medical Scheme formally pursued an amalgamation to partner with Sanlam as Health Partner and enabled by AfroCentric.

Following careful consideration of the outcomes of their actuarial assessments, the Boards of Fedhealth and Medshield concluded that proceeding with an amalgamation would not optimally serve the current needs of their members, and the amalgamation was withdrawn.

The outcome of the withdrawal of the amalgamation discussions represented an important strategic inflection point for the Sanlam-aligned open scheme ambition. While consolidation was explored as one possible pathway to scale, its withdrawal reinforced the complexity of scheme-level integration within the South African regulatory and stakeholder environment.

Building a winning health offering *continued*

In response to this evolving context, the Group's strategic focus under Vision 2030 continues to emphasise scalable, multi-scheme capabilities in administration, managed care, data, technology and clinical innovation. AfroCentric, through Medscheme, remains committed to delivering high-quality services to its medical scheme clients, including both Fedhealth and Medshield, under existing contractual arrangements.

Whilst the strategic intent to build a winning health offering remains unchanged, the approach to achieving scale has evolved. In line with Sanlam's evolving health strategy, increased emphasis is being placed on a broader Health Platform approach, designed to enable participation across multiple schemes, employers and individuals through scalable distribution, rewards, digital capability, administration and managed care, rather than reliance on a single scheme outcome.

During the year, AfroCentric Distribution Services was rebranded to Sanlam Health Distribution and integrated into Sanlam Corporate Distribution. This integration supports a more coordinated distribution approach for healthcare solutions within the Sanlam environment.

Investing in data, digital platforms and technology

Noteworthy progress has been made in the Data Transformation work, laying the foundation for deeper analytics and advanced artificial intelligence (AI) capabilities – this includes AfroCentric Technologies adopting the ScaleForce architecture, thus enhancing our integration and data capabilities available for servicing clients.

The Group completed a significant infrastructure change through the relocation of its data centres. This transition supports a more stable and secure IT environment, enhances infrastructure resilience, and reduces operational risk associated with downtime and service disruption.

Strengthening our managed care leadership through clinically driven innovations

The healthcare landscape continues to evolve towards outcomes-based, coordinated care. Medscheme continued progressing towards Value-Based Care, a model that emphasises quality and improved patient outcomes.

On 1 January 2025, Medscheme launched the Orthocare Spinal Programme for selected schemes. The programme combines psychological support and exercise therapy to improve outcomes for chronic lower back pain patients while reducing unnecessary spinal surgeries and interventions, supporting operational efficiency, optimised resource utilisation and sustainable cost containment.

Evolving our operating model to support our growth strategy

During the year, the Group implemented targeted changes to its operating model and business structure to address execution gaps and strengthen leadership accountability, risk management and operational integration. These changes were designed to better align managed care, capitation and pharmacy benefit management capabilities, enhance governance and control, and position the Group to deliver its strategic priorities more effectively over the long term.

As part of strengthening the Group's risk management and capitation capabilities Scriptpharm was integrated into Medscheme to enhance the Group's pharmacy benefit management strategy. This integration enables closer alignment between managed care, pharmacy services and capitated risk arrangements, supporting improved utilisation management and clinical oversight

A Chief Risk Officer was appointed to strengthen risk management and governance as part of the refreshed strategy and to enhance oversight and control in a complex and regulated operating environment.

Financial performance

AfroCentric delivered a resilient operational performance for the reporting period despite a challenging trading environment marked by contract losses, margin pressures, and subdued activity in key healthcare segments. The Group's reported results were significantly impacted by once-off, non-cash adjustments relating to goodwill impairments and the disposal of the Activo Group. Excluding these exceptional items, the underlying performance demonstrates continued stability across core operations.

Total revenue for the period declined by 10% to R7.3 billion compared to comparable period of R8.1 billion, largely attributable to:

- The loss of contracts, impacting both the Services and Retail clusters;
- A reduction in private patient script volumes attributed to the loss of the designated service provider contracts; and
- Margin pressure on certain pharmaceutical products, which further weighed on topline growth.

The Group's Gap Cover and Primary Health Insurance businesses delivered stable policyholder numbers; however, high claims ratios offset the premium adjustments implemented during the year, resulting in marginal earnings performance for this cluster.

Annexure 1 – Summarised consolidated financial statements *continued*

Financial performance *continued*

In line with the reduction in private patient scripts and constraints on pharmaceutical margins, both the cost of pharmaceutical products and the cost of distribution were lower year-on-year. Management proactively implemented cost-containment initiatives across the private business to mitigate the impact of lower revenue. The lower contribution from the private business relative to the public business resulted in courier margins decreased during the year.

Following the announcement of the loss of the Bonitas Medical Fund administration and managed care contracts effective 31 May 2026, the Group undertook a comprehensive impairment assessment of the goodwill carried on its Statement of Financial Position.

Considering the anticipated future earnings impact of these contract losses, goodwill of R810.9 million was impaired across the Services and Retail clusters. This non-cash impairment resulted in a reported loss from continuing operations of R645.9 million.

The reported loss was further exacerbated by a R613.3 million impairment relating to the operational performance of Activo which underperformed during the financial year with lower ARV sales through the private channel. This loss is recognised under discontinued operations. It is a once-off event and does not affect the future operating performance of the Group.

Management believes it is important for shareholders to distinguish between underlying operational performance and once-off accounting adjustments.

On a normalised basis, excluding the goodwill impairment and loss from discontinued operations, the Group would have generated a profit from continuing operations of R165.0 million. This demonstrates the underlying resilience of AfroCentric's core healthcare administration and pharmaceutical distribution businesses despite sector-wide pressures.

While the Group has navigated a difficult period, the once-off adjustments recorded this year have aligned asset values with current realities, providing a clearer and more grounded estimate of underlying recoverable economic benefits from our asset base.

Capital management and cash flow remained a focus. Cash and Cash equivalents, excluding cash held by assets classified as Held for Sale, increased to R607.3 million (December 2024: R347.8 million). Borrowings increased marginally to R627.2 million (December 2024: R619.1 million) reflecting a mortgage bond in Namibia and interest incurred.

Annexure 1 – Summarised consolidated financial statements *continued*

Financial performance *continued*

Management remains focused on:

- Strengthening its diversified healthcare offerings;
- Restoring revenue momentum through new business development;
- Enhancing operational efficiencies; and
- Effecting a cost-reset to scale down expenses to more sustainable levels.

The Group enters the next financial year with a clear strategy, a strengthened balance sheet, and a commitment to implementing a cost reset that will enable us to continue operating as a trusted and efficient strategic partner to our scheme and public clients on a sustainable basis.

Outlook

AfroCentric enters 2026 in a fundamentally different operating context. The outcome of the Bonitas RFP process represents a material strategic and execution inflection point for the Group.

This inflection point directly challenges the assumptions underpinning Vision 2030, specifically the pace and sequencing of scale, investment and integration required to build a winning health offering.

The strategic intent remains intact, but the pathway must now be stress-tested against concentration risk, a tighter capital envelope, and the practical constraints created by these developments.

In 2026, management's priorities are therefore explicit and execution-led: stabilise delivery across major contracts, protect cash and liquidity, accelerate operational simplification and cost discipline, and continue building the differentiating capabilities that underpin the long-term strategy namely clinically-led innovation (including Value-Based Care), stronger digital and data enablement, and scalable partnership-led propositions.

Service excellence remains non-negotiable and will be protected through disciplined operational execution and continued investment in the foundations that sustain consistent client outcomes.

Regulatory developments continue to shape the healthcare landscape and require agile strategic responses, including ongoing NHI discussions and the CMS Low-Cost Benefit Options report that recommends the phasing out of Primary Health Insurance.

Annexure 1 – Summarised consolidated financial statements *continued*

Outlook *continued*

Retail performance must improve sustainably. The Group's focus is to stabilise profitability in Retail through active management of margin pressures, optimised working capital and a sharper focus on the right product lines and contracts, while continuing to deliver scale and impact through Pharmacy Direct's public-sector CCMDD programme.

Despite these challenges the Group's core business remains sound and competitive. Our diversified healthcare assets, strong partnerships, and prudent capital management position us well to respond to market shifts and unlock new opportunities.

We are committed to developing a cohesive value proposition that leverages our strengths in a more integrated and scalable way, ensuring we continue to deliver sustainable value to shareholders.
