Dear Members of the Board and Principal Officer,

Please find enclosed my Final Consolidated Protected Disclosure highlighting systemic failures that require immediate executive intervention:

Clinical Risk: Gexus-DMS integration failure causing priority clinical and financial risks to beneficiaries.
Governance Breaches: Executive suppression of this risk and material omissions in the 8 April 2026 Integrated Report.

Retaliation: Hostility, unlawful deductions, and my forced constructive dismissal on 12 December 2025.
Formal legal proceedings are active. A Statement of Claim was officially filed with the Labour Court, with both physical and digital records lodged on the 9th April 2026 which is with the Director of Court Operations of the Western Cape Ms R. David.

Yours faithfully,

Wilbur William Matthee
