Dear Ms Ismail,

My statement of claim has been rejected due to wrongly uploaded. Kindly review the screenshots to guide me on what I should select. The portal itself is not allowing me to load my documents or details.

I am a self-represented litigant despite my explicit request for assistance and the application of Equality of Arms and yet my attempt to file have been met with technical rejections.

I do not have the means to present to the labour court of Cape town physically as I am navigating homelessness and destitution.

This is my last attempt at accountability and transparency. If I miss this deadline due to these technicalities it would be a grave miscarriage of justice.

Kind regards

Dear Ms Soundy and Ms Ismail,

I am writing this as a final urgent appeal regarding the technical obstruction I am facing on the Court's portal. Despite being instructed to "keep trying," and following the call centre's directive to seek assistance from the Cape Town Labour Court, the system remains inoperative for my filing.

The Technical Failure:

While I can initiate the case and enter party details, the portal prevents the insertion of all other mandatory details required to finalize the filing.

The Legal Crisis:

Statutory Deadline: My 90-day period following the CCMA non-resolution (9 Jan 2026) expires tomorrow, 9 April 2026.

Risk of Condonation: If this portal failure forces me past the deadline, I will be unfairly burdened with a Condonation Application. As a destitute applicant, I cannot afford the "reasonableness" hurdles or the tactical delays the Respondent will use to strike my claim.

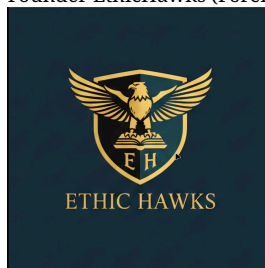

Section 34 Rights: This administrative failure is actively infringing on my Constitutional right to Access to Justice and the principle of Equality of Arms.

Request:

I am ready and compelled to file. If the portal cannot be bypassed immediately, I request an urgent Judicial Directive or permission to file via email/physical copy to preserve my statutory rights. I cannot be penalized for a failure in the Court's own digital infrastructure.

Regards,
