Re: Clinical Referral for Specialist Assessment

Patient Name: _____

DOB/ID: _____

Contact: _____

Dear Doctor/Colleague,

The above-mentioned patient presented at Ethic Hawks for a clinical screening on [Date]. Upon assessment, the following abnormal clinical markers were identified which require further diagnostic investigation or medical intervention:

1. Primary Clinical Findings:

- Blood Pressure: [e.g., 165/105 mmHg]
- Blood Glucose (Capillary): [e.g., 14.2 mmol/L - Fasting/Random]
- Hemoglobin (Hb): [e.g., 9.2 g/dL]
- Urinalysis: [e.g., Protein ++ / Glucose +++]
- Other Observations: [Include physical symptoms or psychosocial risks noted]

2. Specialist Assessment Notes:

Requested Action:

Based on the Wilbur Method of forensic clinical oversight, I am referring this patient to your care for:

- ☐ Formal diagnostic confirmation (Pathology/Radiology)
- ☐ Initiation of pharmacological treatment
- ☐ Urgent stabilization/Emergency review
- ☐ Specialist consult in [State Department, e.g., Internal Medicine/OBGYN]

Kind Regards,

(Signature)

Wilbur Matthee

Specialist Nurse (Health Services Management, Psychiatry, Midwifery, Community Health)

Ethic Hawks: Vigilance in Governance

Notice: This referral is issued as part of a Specialist Nursing Consultation. Clinical integrity and patient safety are our primary objectives. For any queries regarding the clinical findings mentioned above, please contact the practitioner directly.
