Dear **Wilbur**

Annual Increase for 2025/2026

It gives me great pleasure to confirm that the Group is in a position to award annual salary increases in respect of the 2025 financial year. In line with the Remco approved mandate and as agreed with NEHAWU, your annual Cost to Company (CTC) will be adjusted by 4.8% effective from 01 April 2025.

Your new CTC will therefore be R 42796.13 per month.

You may use this opportunity to restructure certain elements of your CTC package to suit any changes to your life stage. Employees are always encouraged to increase contributions to their retirement funding (pension fund) and employees will be required to have a minimum employee pension fund contribution. Human Capital will be advising shortly on the process and timelines for CTC package structuring.

On behalf of AfroCentric Health, I would like to thank you for your contribution to the realisation of our strategic objectives. I wish you success in the year ahead.

Kind Regards,

Gerald Van Wyk
CEO AfroCentric.
