To the Registrar and Professional Conduct Desk
South African Pharmacy Council

I write to correct one characterisation in my complaint filed earlier today against Lisa Mari, Responsible Pharmacist.

In that document I described the Council for Medical Schemes as having formally found 'Administrative Misconduct and Ethical Failure.' I must correct this.

THE ACCURATE POSITION:

On 23 December 2025, I filed a complaint with the CMS titled 'Administrator Misconduct, Ethical Failure and Retaliation — Request for Investigation.' The CMS acknowledged receipt and, following review of the complaint and supporting documentation, determined that the conduct described involves registered health professionals and referred the matter to the HPCSA for investigation (4 February 2026).

The CMS made no formal finding of misconduct. The subject line was the title of my own complaint, not a CMS determination.

What the CMS correspondence accurately establishes is that an independent statutory body reviewed my materials and concluded the conduct described involves registered health professionals — consistent with the professional misconduct complaint now before SAPC.

The core allegation against Lisa Mari — that she used three-month claim pattern analysis to dismiss a structural system error and presented it as a final resolution — remains fully supported by the documented evidence and is unaffected by this correction.

All other facts, evidence, and allegations in the complaint remain unchanged and accurate.

Yours faithfully,

Sr. Wilbur William Matthee

Dear SAPC,

Please find the attached correspondence regarding a correction to the initial complaint filed on 16 February 2026.

I have updated the details to ensure the accuracy of the record. Please ensure this correction is included in the case file for review.

Kind regards,

Wilbur William Matthee
RN, BCur (HMN), PG Dip HSM (NQF 8)
