Dear National Financial Ombudsman,

I am filing an emergency complaint regarding gross administrative negligence by Discovery Bank. I am a Specialist Nurse currently facing a humanitarian crisis—a funeral scheduled for this week—made impossible by a banking error that occurred during a period of extreme psychiatric vulnerability.

The Discovery Bank Error and call: (Ref: 24519684):

On **24 June 2025**, just three days after being discharged from psychiatric care for MDD and PTSD, I contacted Discovery Bank. I gave **explicit, strict instructions** to keep my Metropolitan policy (333281155) active. The consultant failed to identify that a queried debit was my premium and, contrary to my instructions, stopped the policy.

I only discovered this error in **late November 2025** when Metropolitan informed me the policy had lapsed. I immediately tried to save the policy by making a payment 21 November 2025 and engaging with Metropolitan. However, I was then hit by a "perfect storm" of events:

- **Constructive Dismissal:** I was dismissed in December 2025 and have been embroiled in a high-stakes CCMA battle.
- **Cognitive Overload:** I have been managing a **69-page founding affidavit** involving six different regulators.
- **The Oversight:** Due to the immense pressure of these legal battles and my fragile mental health, I overlooked a follow-up email to Metropolitan in December where i have submitted the requested documents but i only replied to myself not to all at the time meaning they did not receive the requested documents as requested in December 2025. As a Specialist Nurse, I was forced to "triage" my crises, and my brain prioritized the labor dispute that caused my current destitution.

Had Discovery not made the original error in June 2025, the policy would never have lapsed. Even with my financial hardship in January 2026, the policy would still be within its **30-day grace period** today. Discovery’s administrative failure is the root cause of this entire crisis.

My beneficiary has passed away. The funeral is this week. I am currently destitute and unable to travel to the burial destination or make the necessary funeral contributions. I am being denied the ability to bury my loved one with dignity because of a corporate mistake.

I request the NFO to ask Discovery Bank to acknowledge their liability and provide the emergency restitution needed to fund the funeral and travel costs today. If it is not too much to ask to work directly with Metropolitan to fix this error today.

Sincerely,

Sr. Wilbur Matthee

Specialist Nurse Health Services Manager
