Subject : Formal Complaint: Missing Immediate Payment - Transaction Inquiry
Date : 05 Jun 2026 08:20

Dear GoTyme Bank Support,

I am writing to formally escalate an issue regarding an immediate payment that has failed to reflect in my account despite confirmation from the sending institution.

On 27 May 2026, an immediate payment of R60.00 was initiated from Capitec account to my GoTyme Bank account. I have verified with Capitec Bank that the funds have successfully left their system. As evidenced by "Screenshot_20260605_051350_Adobe Acrobat.jpg" and "IMG-20260529-WA0004.jpg", this transaction is documented and confirmed.

Despite these confirmations, the funds have not reflected in my GoTyme Bank account. During my previous engagements via your live chat support—as documented in "Screenshot_20260605_051713.jpg", "Screenshot_20260605_052259_GoTyme ZA.jpg", "Screenshot_20260605_052317_GoTyme ZA.jpg", and "Screenshot_20260605_052345_GoTyme ZA.jpg"—I was informed that your team is unable to track incoming or pending funds. This lack of visibility and the inability to provide actionable assistance regarding a verified transaction is deeply concerning.

As a customer, I expect a higher level of institutional accountability when a financial transfer fails to reach its destination. I find it difficult to accept that an electronic transaction lacks a traceable string or code to assist in an investigation.

I request that you escalate this matter to a senior representative who can investigate the status of this transaction. Please provide me with meaningful feedback as to why these funds have not been credited to my account.

I have attached the relevant proof of payment and correspondence for your reference. I await your prompt response regarding the resolution of this matter.

Regards,

Wilbur Matthee
