Attention: Ruanne David, Nicola Hanekom, and All Recipients CC'd

Dear Ms. David and Ms. Hanekom,

I refer to the responses received at 16:58 (Hanekom) and 17:01 (David) on 9 April 2026, respectively.

I wish to place the following forensic rebuttals on the record before this oversight group:

Contrary to the statement made by the Director of Court Operations at 17:01, the Statement of Claim is signed. I have attached a high-resolution screenshot of the signature page as submitted. The signature is clearly visible, dated, and legally valid under Section 13 of the ECTA (2002). The claim that the document is "not signed" is factually incorrect and easily disproved by opening the file.

I note with grave concern that Ms. Hanekom responded at 16:58 and Ms. David at 17:01. This coordinated timing-waiting until the final minutes of a passed 90-day statutory deadline to raise a non-existent technical defect-constitutes a deliberate attempt to obstruct my access to justice.

At 09:54 AM on 9 April 2026, this office confirmed via email that the filing was approved and a case number issued. A document cannot be "approved" if it is unsigned. The after-hours attempt to "un-approve" a valid filing is a gross administrative irregularity.

As documented in the 10:16 AM email, the Director admitted to a nationwide failure of the OCJ system. To hold a destitute, self-represented litigant to a "perfect" filing standard while the Court's own infrastructure is in a state of acknowledged collapse is irrational and discriminatory.

I am forwarding this exchange, along with the proof of signature, directly to the Parliamentary Portfolio Committee on Justice and the SAHRC. I am officially requesting that these bodies investigate why the Western Cape Court Operations office is reporting a "lack of signature" on a document that is clearly signed, and why they waited until 17:01 on a passed deadline day to do so.

I have fulfilled my statutory obligation.

The document is signed. It was in your possession before 17:00. I require the immediate release of the case number as approved at 09:54 AM 09 April 2026. Any further delay will be treated as a direct violation of my Section 34 Constitutional Right.

Yours faithfully,

Wilbur William Matthee

Good day sir

I note that you are lodging complaints with other organisations but you are failing to alert them that we are in communication with you.

The documents you sent the Labour Court via e-mail earlier today are unsigned (the second application- PDA claim). The court cannot upload and issue these documents for you as the signature is a requirement.

Please note that threatening the court personnel or demanding service will not force them to issue procedurally incorrect documents.

Kindly ensure that you upload signed and procedurally correct documents on Court online so that the matter can be issued.

If you are having a challenge with uploading, as the registrar indicated in her earlier mail to you, you may send it to her via e-mail so that she can upload it for you.

Thanking you.

Subject: URGENT: Formal Submission - Systemic Judicial Obstruction & Administrative Malpractice [Sr. W.W. Matthee]

Dear Honorable Members and Directors,

Please find the attached Comprehensive Memorandum (Ref: EH/JO/2026/001) regarding a sustained and systemic obstruction of justice currently being perpetrated by officials within the Office of the Chief Justice (OCJ).

As a whistleblower in a state of government-acknowledged destitution and homelessness, I am submitting this formal indictment to record the following critical failures:

Administrative Attrition: A 28-day delay by the Labour Court in March 2026 which forced me into the High Court under extreme medical and financial duress.

Procedural Persecution: A High Court hearing (Case No: 2026-066952) where my disclosed PTSD was mocked by the Bench, and where I was "represented" by an unauthorized Advocate who was committed for 72-hour psychiatric observation immediately following the hearing.

Concealment of Evidence: The intentional withholding of court audio recordings since 26 March 2026, which capture the mockery and procedural collapse mentioned above, effectively blocking my right to a Rule 42 Rescission.

Material Misrepresentation & Data Breach: The active falsification of court records today, 10 April 2026, to mask a statutory filing deadline failure, alongside a gross POPIA breach involving the disclosure of a third party's (Armstrong vs. City of Cape Town) confidential legal documents.

The attached memorandum details how these actions constitute a "functional denial of justice" and a direct violation of Section 34 of the Constitution.

I am a citizen seeking the protection of the Law; instead, I have been met with administrative trickery and the weaponization of my poverty. I request the Committee's urgent intervention and a Judicial Directive to rectify these records and preserve my statutory rights.

Respectfully,

Wilbur William Matthee
