Subject : Total Destitution, Professional erasure.
Date : 24 Apr 2026 13:00

Dear Honourable Minister Kubayi,

My name is Wilbur William Matthee. I was a registered specialist nurse up until 2025.

Early 2025 I reported Clinical discrepancies as a Specialist Nurse are expected to. The retaliation and victimisation started very lightly first a 40% salary deduction without consultation or consent, plus my usual deduction totalled to over 57% total deductions in one month for 23 July 2025. The deduction was for a period I was admitted to a treatment facility major depression and ptsd.

As a direct result of the deductions I made unsecured loans with people in my area just to make ends meet and not really anticipating that this will only be the start of a debt trap.

The retaliation increased i suggested a filtering strategy and the team liked it. Kindly take note that the most severe events only occur around the pay day cycle. On the 23rd of September the Manager posted the following in a team wide channel discriminating against my sexuality and identity by calling me Wilma followed by the instruction of no filtering highlighted in red. I reported the manager and the manager went to load double punitive unpaid leave to my payslip.

We met with the senior manager who said it was a typo I know it was a deliberate attempt.

On the 23rd of October 2025 I was instructed to attribute blame to a member and gently probe on non adherence despite the daughter called to complain saying stop confusing old lady and get your house in order during this time I identified an integration gap this was a payient safety and administration issue I reported the systemic issue. Because I did refuse to call the member I was labeled as insubordinate.

During a recorded meeting the manager stated you made a case of harassment against me so now I can make a case of harassment against you. And confirming in the same recording that my clinical findings and not calling to member was insubordination. To make things even worse I developed a CPD program in the same year in April that was rejected by management only to have the exact program roll out in late October 2025. Just to tell me in a subtle manner we can do with you whatever.

As a result I filled a formal complaint with the HR department and union. This complaint was completely ignored for over 30 days. I decided to escalate to the executive team in hope that they would help. To my own detriment the executive team sent my formal complaint straight back to the department I was complaining about. I referred to the ccma engaged with the Department the could not provide me with safeguards I decided to escalate to the highest level of governance in the company the ignored me filed a defamatory affidavit at the ccma I resigned as a result of the affidavit and the Board's inaction stating constructive dismissal.

What happened next the company downgraded my title on my service certificate, refused to remit UIF and committed statutory fraud by Submitting a voluntary resignation.

They blocked me from my unemployment funds. Refuse to remit uif. This is just an overview. At the end of March I was officially evicted, my belongings was taken forcefully by loan sharks and they expecting their money what makes t his situation even more severe a 5000 turned 80 000 in 4 months they double it i appeared today in the high court western cape with the hopes to get their gag order removed. The case was thrown out because I could not print the Applicant's papers.

To be honest I hoped that I would be able to argue the clean hands or good faith but I was not allowed the focus was on the Applicant's founding affidavit that I did not include in my bundle.

I cant go back to where I am staying the debt has now reach a limit that my life is at danger. I reach out to TWBH they cant help me their lawyer said my complaints does not meet PDA a legally flawed opinion stripping me away from my last hope.

I am finally on the streets with absolutely nothing. From a nurse specialist care manager to homeless for bringing up patient safety concerns.

Everywhere I turn to CCMA flawed, Labour Court obstructions, high court punitive cost, SANC Silence, Department of Employment cant help , CMS not their jurisdiction, SAPC cant help, HPCSA no help, Probono legal to complex, law clinics dont qualify, legal aid to complex.

Every institution i turn to they close the door on me. This is truely the most difficult year and its continuing.

I thought I should inform the Honourable Minister. And hopefully something might happen.

With the last of the stregnth I have, happy freedoms day.

I have added a few attachments for contacts the TWBH says these does not qualify as PDA.

Wilbur Matthee
