Good day Colleagues

Thank you, Wilbur for taking my call earlier.

@Mary-Ann Jones while you were on leave, Wilbur reached out to me regarding a concern that arose from a recent team-wide communication.

Wilbur felt mocked by the tone and/or content of the message that was shared with the entire team, and understandably, this has caused some discomfort. Given the sensitivity of the matter, I'd appreciate it if you could connect directly with him to discuss the concern in a constructive and empathetic way. It's important that we maintain a safe and respectful environment where everyone feels valued.

Once you've had a chance to engage, please share your feedback with me so we can ensure the matter is appropriately addressed.

Thanks for your understanding and support.

Kind regards,

Nthabiseng Nkatane
